We are Policy Connect, the not-for-profit organisation with two decades in policy work, overseeing the research and delivery of more than 50 key publications. We have a long history of success in running engaging forums, commissions and All-Party Parliamentary Groups.

Our work

Policy Connect brings together parliamentarians with public and private organisations to tackle big issues across a range of sectors affected by policy. We deliver key pieces of independent research with evidence-based recommendations to inform and improve UK public policy. All of our work is delivered by the dedicated teams at Policy Connect who are passionately involved in policy work, and experts in their area of inquiry.

Our social responsibility

Being an open, transparent not-for-profit organisation and maintaining independence through cross-party work is one of the pillars of what makes us who we are. Our team is accountable, friendly, knowledgeable and trustworthy. We are a social enterprise and London Living Wage accredited. Our Corporate Social Responsibility programme includes mentoring disadvantaged young people.

Getting involved

By getting involved in our on-going programme of policy engagement, our partners can better understand their market demands and encourage policymakers to focus on critical areas with an informed approach. There are numerous ways for organisations to become involved with our work. Member and supporter organisations have the flexibility to tailor their involvement to meet their need, with options including membership, research inquiry partnership, and individual event or report sponsorship.

SafeLives — our charity of the year

At Policy Connect, we choose a charity to support each year. This year we have chosen SafeLives, a national charity dedicated to ending domestic abuse. Every year, over two million people experience domestic abuse. Through combining data, research and insight from services and survivors, SafeLives seeks to find out what really works to make vulnerable people safe and well.
